

STUDENT ORG TABLING

Quick Tips on How to Table for Your Org

INTRODUCTIONS

Introduce yourself and your organization to students. Tell them more about your org, your role, ask them what they are looking for in an org. Limit to about 2-3 current members at your table, so it is less overwhelming.

ORG MATERIALS

Bring materials to handout to students to help them better understand your org and see upcoming events. Utilize materials such as trifold, business cards, flyers, or pamphlets. Giveaway items are also a great way to grab attention. Avoid distributing food.

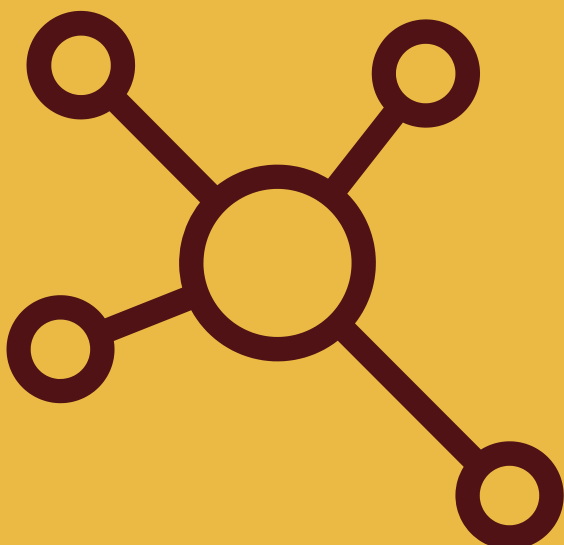

PERSONAL STORIES

Sharing personal stories of how your org has impacted you will help others see the experience they could have as a member! Share with the students some of your favorite things that your org does.

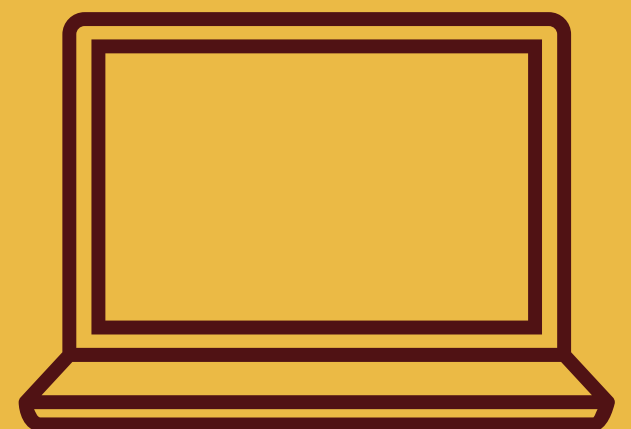

CONNECT

Bring a laptop or notebook to collect contact information. It will also be great to have contact information posted so students can connect via email, website, or social media. With social media, be sure to use relevant hashtags! Promote your org in the Bobcat Organization Hub!

OPPORTUNITIES & RESOURCES

Our website is a great resource for your org. The Bobcat Organization Hub is your one stop shop for involvement & engagement. Be sure to utilize all the online resources provided to you as a student organization at TXST!
