MSEC SEMINAR AND COMMERCIALIZATION FORUM

INVITED SPEAKER:

DR. EDWARD PEREZ
DERMATOLOGIST
CLINICAL DERMATOLOGY

“DERMATOLOGY: PATIENT CARE AND NOVEL
SOLUTIONS”

November 5th, 2021
1:30 – 2:30 PM (CST)

Biography:

Dr. Edward Perez is a native of Central Texas being born and raised in Austin. After graduating from the University of Texas at Austin in Chemical Engineering with an emphasis on biomedical applications, he chose to train in clinical medicine at Harvard Medical School where he was in the first class in tutorial curriculum. He complemented his medical degree from Harvard with graduate study at the Massachusetts Institute of Technology. Dr. Perez focused on materials for tissue regeneration in which he received his PhD from MIT. His work on epithelial cell scaffolding was the genesis of a Silicon Valley startup for refractive surgery.

TEXAS  STATE
UNIVERSITY®

The rising STAR of Texas

Dr. Perez took his dermatology training at Stanford University in Palo Alto California where he was the chief resident in his final year. His clinical focus remains robust as he constantly maintains clinical activity in all aspects of general dermatology and surgical dermatology. With a penchant for regenerative clinical technologies, he has extensive experience in using synthetic skin for wound healing. More recently, Dr Perez has embraced cutting edge therapeutics in Biologics to help his patients with previously poorly responsive disease.

Dr. Perez maintains research collaborations with MIT for study and development of new diagnostic and therapeutic medical technologies. Even so, his professional goals center on his patients. He enjoys seeing his patients and considers that interaction paramount. Dr. Perez is fortunate to be able to speak Spanish and service a greater portion on the Central Texas population. He feels great affection for the patients of Central Texas and is honored to bring his wide and highly special education to his home state.
