Editor's Spotlight on Dr. Corey Fox

Teaches Strategic Management: MGT 4335 (FTF, Hybrid and On-line)

Teaching Interests:
-Strategic Management
-Management Consulting
-Business & Society

Research Interests:
-Risk Assessment & Management
-Corporate Social Performance
-Social Issues & Organizations

My current research focuses on three general areas. First, I explore how relationships between managers and the firm's stakeholders influence the performance of the firm/company. Second, I examine managerial risk communications and how those can inform shareholders about the firm's level of risk. Third, I am examining how the industry of finance influences firm strategies.

When not at work, my favorite things to do are hang out at home with my two little monsters, watch my Iowa Hawkeyes and Oklahoma State Cowboys (and of course now the Texas State Bobcats!), and CrossFit. This summer I attended my 20th high school reunion and ran a 7-mile road race in Iowa.

What other courses have you taught?

At Texas State: Strategic Management

At other institutions: Principles of Management, Organization Theory, Small Business Operations

Thank you Dr. Fox for all that you do for Bobcat Nation!
