FOR WATER AND THE ENVIRONMENT
TEXAS STATE UNIVERSITY

TEXAS STREAM TEAM

CARING FOR OUR WATERS

Texas Stream Team is a statewide network of community scientists and partners dedicated to providing education programs, water quality monitoring, and opportunities for collaboration to support projects that protect and improve water bodies across Texas. Texas Stream Team is administered through a cooperative partnership between The Meadows Center for Water and the Environment, the Texas Commission on Environmental Quality, and the U.S. Environmental Protection Agency.

What can you do for the future of Texas water?

Join us: As a trained community scientist, you will make a difference for our Texas waters.

Partner Up: Our public and private partners trust us – and each other – to share information, resources, expertise, and opportunities.

Fund Us: Every drop counts! Visit our website and donate.

12,700+ COMMUNITY SCIENTISTS TRAINED

34,000+ HOURS DEDICATED TO WATER QUALITY
MONITORING
