

Carl David McAfee, Ph.D.

Carl is the founder of McAfee Consulting LLC, the consulting firm behind the professional technical, chemical and analytical services of [prochemist.com](https://www.prochemist.com/). Before starting his own business, Carl worked as a technical director at Chase Elastomer Corporation and a project leader at The Dow Chemical Company. In addition, during his student years, Carl did work in the areas of analytical techniques (all), nuclear chemistry, mass spectrometry, field ion microscopy, time-of-flight mass spectrometry and atomic absorption analyses of precious metals. Carl's areas of specialty include analytical chemistry, polymer science, photochemistry and designed experiments.
