MSEC SEMINAR AND COMMERCIALIZATION FORUM

INVITED SPEAKER:

DR. JEANETTE HILL

“SPOT ON INNOVATIONS FOR HEALTHCARE”

September 14th, 2018

1:30 – 3:00 PM

RFM 3241

Biography:

Dr. Jeanette Hill is the founder and CEO of Spot On Sciences Inc., which develops medical devices to allow a blood sample to be taken at home with a finger stick. She has > 20 years of experience in research and management positions in small and large biotech companies, developing products for preclinical drug testing. She received a Ph.D. in Bio-organic Chemistry at Washington University in St. Louis with research in protein engineering and completed post-doctoral research on liver disease and diabetes at Case Western Reserve University and Washington University Medical School.

Spot On Sciences (www.SpotOnSciences.com) has been awarded grants from DARPA, NIH and Gates Foundation and has won many innovation and business awards including RISE Global pitch winner, 1776 Challenge, SXSW Accelerator, Astia Global winner, Austin A-List Hottest Start-ups, Get In the Ring N.A. winner, and White House Demo Day

Abstract:

Dr. Hill, Founder and CEO of Spot On Sciences (www.spotonsciences.com), will discuss technology development and commercialization of blood collection devices within a bootstrapped medical device start-up. Experiences with entrepreneurial training, grant funding and product manufacturing will be highlighted. The presentation will also cover current drivers for innovation in healthcare to provide consumer-centric and precision medicine for an aging population.
