

# Tricky Issues: Small Claims Scenarios

Judge Rick Hill, Brazos County JP, Pct. 3

Please take a seat at a table that has a laminated scenario and butcher paper on it. Please do not sit at an empty table.

1

You are about to enter the ***Small Claim Zone...***

2

## Agenda

- You should currently be at one of the tables with a scenario (there are seven). Please move to one now if you are not.
- **First hour:** You will rotate through the scenarios as a group and note any comments and questions on the butcher paper (specific instructions on the next slide).
- **Second hour:** Each group will present the first scenario they answered, and we will discuss each one all together.
- *Note:* an answer key will be provided later in the class.

3

## Instructions

- You will work with your group to put notes on the butcher paper about how you would respond to the scenario at your table.
- You will then rotate through the rest of the tables and add any comments or questions to the notes that are already there. You can put a checkmark by notes you agree with.
- These are real board questions that TJCTC has gotten. You should answer the specific questions asked, but also look to see if there is any additional info needed or wrong procedures that need to be noted/corrected.
- You will have 10 minutes at your first table and 3-5 minutes at each subsequent table. I will let you know when it is time to rotate.
- When you rotate, always move to the next highest number, so from #1 to #2, etc. If you are at #7, move to #1.
