# 1 Introduction

## 1.1 Why Study at Texas State University – San Marcos?

Texas State University – San Marcos is an international-student friendly institution. EducationUSA, which is a program of the U.S. Department of State Bureau of Educational and Cultural Affairs, has defined international-friendly institutions as institutions that “recognize that in an increasingly interdependent world there is educational value in having international students on the campus”.

Texas State recognizes the value international students bring to our institution and it is committed to providing international students with an enriching education experience. The professional staff at the International Office maintains membership in appropriate international educational organizations and associations to be actively engaged in the many regulatory, educational, and cultural issues related to international students. Texas State also provides special programs for international students to assist them in achieving a successful transition into our University. Some of these programs include an international student orientation, a welcome social for new international students, and options for additional English instruction for non-native speakers.

Overall Texas State is a friendly campus that has a lot to offer international students: prestigious programs, beautiful parks and campus, artistic, cultural, political and athletic events, and a convenient location in close proximity to two of the most eclectic cities in Texas, Austin and San Antonio.

Here are some measures of excellence you will find here at Texas State

- Named U.S. News America’s Best Colleges 2009
- The Princeton Review named Texas State an America's Best Value College for 2006-2007.
- Texas State business and mass communication students won their second National title at the American Advertising (AAF) 2005 National Student Advertising Competition (NSAC). Since 1990, the Texas State team has placed within the top four places eight times.
- Denise Smart, Dean of the McCoy College of Business Administration was named the most student-centered dean in a panel of Fortune 500 executives.
- The Mitte Laureate Scholarship is the largest four-year undergraduate scholarship offered by a public institution in the state of Texas.
- Texas State produces more teachers than any other college or university in Texas.
- The Criminal Justice Department is nationally recognized for its training program in hostage negotiation.
- Texas State is the only central Texas public university that offers a Bachelor's degree in Radiation Therapy.
- The Mitte Art-Technology-Physics building opened in the fall of 2003 and contains one of the first MicroFab Lab facilities in a U.S. academic institution.
- The Sound Technology Recording Program of the School of Music is the only four-year program in Texas and is also housed in a commercial recording studio.

## 1.2 Who is an International Student?

An international student is a student who enrolls in a U.S. academic program and whose status is non-immigrant. Common non-immigrant statuses are A-1, A-2, B1, B-2, E-1, E-2, F-1, F-2, H-1, H-4, J-1, J-2, L-1, L-2, M-1, R-1 and R-2. F-1 is the most common status used by international students. A student who has applied for or received permanent residency, refugee status or asylum in the U.S. is not considered to be an international student by the U.S. Citizenship & Immigration Services (USCIS).

## 1.3 Your Second Home - Texas State University San Marcos

Texas State's original mission was to prepare Texas public school teachers, especially those of the south central area of Texas. It became renowned for carrying out this mission, but today it does far more. Texas State currently offers programs in the College of Applied Arts, McCoy College of Business Administration, College of Education, College of Fine Arts and Communication, College of Health Professions, College of Liberal Arts, College of Science, and University College. The University College also oversees the undergraduate general education core curriculum and undergraduate advising as well as the freshman year experience. The Graduate College provides opportunities for continued intellectual growth through advanced and specialized education that develops leaders in the professions and in research. As Texas State's student population has grown—from 303 in 1903 to more than 30,803 in 2009—the campus, too, has expanded and today Texas State is the sixth largest public university in the state. Overlooking the campus and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur.

Texas State's 30,803 students choose from 101 bachelor's, 88 master's and nine doctoral degree programs offered by the following colleges: Applied Arts, McCoy College of Business Administration, Education, Fine Arts and Communication, Health Professions, Liberal Arts, Science, University College and the Graduate College.

Texas State students come from around the globe, and our student body is diverse. Thirty-five percent of Texas State students are ethnic minorities. In fact, Texas State is ranked 20th in the nation for the number of degrees we grant to Hispanic undergraduates. See the University Fact book for more information on our student body.

Texas State is also the lead institution of a multi-institution teaching center offering several programs in the greater north Austin area. There are 1,739 Texas State students enrolled at the Round Rock Higher Education Center (RRHEC).

### 1.3.1 Location

Texas State's main campus is in San Marcos, a growing community of 50,000 people that is about halfway between Austin and San Antonio. Located on the edge of the Texas Hill Country, where black land prairies roll into beautiful hills, Texas State enjoys a setting that is unique among Texas universities.

The beauty of the crystal-clear San Marcos River and the stately cypress and pecan trees on the campus adds to the charm of the university's picturesque setting. Our location on the banks of the San Marcos River provides recreational activities for students throughout the year.

### **1.3.2 History**

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. Over the years, the Legislature broadened the institution's scope and changed its name, in succession, to Normal College, Teachers College, College, and in 1969, University. Each name change reflects the university's growth from a small teacher preparation institution to a major multipurpose university. In 2003, the Texas Legislature passed legislation to change the name to Texas State University-San Marcos.

### **1.3.3 Colleges**

The University offers programs in College of Applied Arts, McCoy College of Business Administration, College of Education, College of Fine Arts & Communication, College of Health Professions, College of Liberal Arts, and College of Science. In 1986 the University College was created to assure a broad general education for all students, regardless of major. In 1935 the Board of Regents authorized the formation of The Graduate College.

### **1.3.4 Campus**

As the university's student population has grown - from 303 in 1903 to 30,803 in 2009 - the campus, too, has expanded, and today consists of a 456-acre main campus and 5,000 additional acres in recreational, instructional, farm and ranch land. Overlooking the campus and serving as a landmark since 1903 is Old Main, a red-gabled Victorian building restored to its original grandeur. In 1979, after adding a number of classroom buildings and residence halls, the university purchased the former San Marcos Baptist Academy adjacent to the original campus. In 1994 the 90-acre Aquarena Springs theme park, also adjacent to the main campus, was purchased. Campus facilities encourage a feeling that Texas State is a special place.

## **1.4 About International Office – Texas State**

**Assist the university in developing and maintaining an internationally diverse student body, faculty, and staff by:**

- Contributing to the retention of non immigrant international students by serving as their advocates, by providing information and services to facilitate their academic and cultural adjustment and by maintaining compliance with related Department of Homeland Security (DHS) regulations.
- Contributing to the research and teaching mission of the university by assisting the Office of Faculty Records, departments and Human Resources with the employment of distinguished non immigrant faculty and staff and by maintaining compliance with associated government regulations.
- Promoting global awareness and perspective at the university by facilitating international agreements and by sponsoring international education month each November.
