

## **Affordable Learning Materials Implementation Grant Application Evaluation Form**

<b>Proposal Scoring</b>	<b>Max. Points</b>	<b>Actual Points</b>
<b>Project design</b> <ul style="list-style-type: none"><li>• The project is well defined and grounded in principles of effective instructional design.</li><li>• Planned learning outcomes and plans for assessments of learning are well-aligned.</li><li>• The project identifies how affordable learning materials and/or OER supports student mastery of learning.</li><li>• The project can be completed within the grant period.</li><li>• The proposed project is realistic and appropriate to the goals identified by the applicant.</li><li>• If materials are identified, the project description identifies the affordable learning materials/OER licensing of the materials.</li><li>• The proposed activities and strategies are appropriate and are described in sufficient detail.</li><li>• The project plan incorporates collaboration with University Libraries and instructional design support through the Office of Distance and Extended Learning.</li><li>• The project describes the course, how often the course is typically offered, and projected course enrollment.</li><li>• The project description identifies the current learning materials and the estimated savings to students if the project is developed.</li><li>• The project has support from the college/department/school.</li><li>• Project activities would likely continue after the grant period ends.</li></ul>	<b>35</b>	

**Project goals****25**

- Project goals align with the overall goals of the Affordable Learning Materials grant program to develop or implement courses that use no-cost educational resources.
- If identified, the course materials proposed are of sufficient quality to enhance course curricula, including student learning outcomes/objectives aligned to the affordable learning materials as well as to assessments.
- The course materials are provided to the student at no cost, other than the cost of printing.

**Evaluation and expected outcomes****40**

- The proposed project evaluation for determining the success of the project is described in sufficient detail and includes relevant information/data to be collected.
- The expected outcomes are achievable using the resources and plans the applicant submits.
- The expected outcomes would make a significant impact on reducing the cost of educational resources in the course(s).
- There are sufficient staffing and resources to ensure that project evaluation information/data will be properly collected and reported.
- The course has appropriate approvals to be offered at least one time via Extension within a year of the beginning of the grant period.

**Total Points****100**
