

CAREER SERVICES

Phone: (512) 245-2645 Office: LBJ Student Center 5-7.1
Fax: (512) 245-3993 Web: <http://www.careerservices.txstate.edu/>

Through Career Services, students have access to a wide array of career-related programs and resources.

Career Planning

Individual career counseling and planning assistance is available to students for selection of a major and the establishment of career goals. Career assessment tests and web-based guidance programs are also available for use in this process. In addition, assistance and information is available for students pursuing graduate and professional school goals.

Part-Time/Summer Employment

Part-time employment, both on- and off-campus, and summer employment are available to help students gain additional financial resources and experience while continuing their education.

Internships/Job Shadowing

Internship programs are available to refine career goals, gain practical experience, and expand students' views of the world. Job Shadowing is an externship experience that also provides these opportunities for students, as they spend time with professionals inside various organizations and gain firsthand knowledge about different career fields.

Job Search Strategies

These services include career coaching and job search preparation workshops focusing on resume writing, interviewing techniques, salary negotiations, and business etiquette. On-campus interviews, resume referrals, online job vacancy postings, and recommended Internet job search links are also provided.

Employer Connections

The Career Information Center provides resources to help students learn about potential careers and employers. Special events such as Fall Job and Internship Fair (October), Health Careers Job Fair (October), Teacher Job Fairs (November and April), Summer Job Fair (February), Internship Fair (February), and the National Multicultural Job EXPO (March) bring hundreds of employers to campus, with both full-time job and internship opportunities for students.
