

## PROPOSED INTERNSHIP ACTIVITY PLAN

The plan should include: each of the required activities of the internship, and an estimate of the amount of time (in hours) to be spent in each activity category; specific topics or activities to be accomplished; to whom the services will be provided, how the target persons will be identified and obtained; and the approximate amount of time expected to be spent in each activity. Ultimately, this plan should demonstrate how the counselor intern will earn 300 hours of internship experience.
